Young Energy Researchers Conference

Energy Efficiency & Biomass

28 February – 1 March 2018

- The Young Energy Researchers Conference is part of the World Sustainable Energy Days. With more than 700 participants from over 50 countries each year, the World Sustainable Energy Days are one of Europe's largest annual conferences on sustainable energy.
- Linked to the main topics of the WSED18, the conference has 2 tracks, one for biomass and one for energy efficiency.
- The 2 best contributions are honoured with the awards "Best Young Energy Researcher: Energy Efficiency" and "Best Young Energy Researcher: Biomass". The researchers receive 1,000 Euro each as prize money.

We look forward to your contributions!
