

Young Energy Researchers Conference

2 – 3 March 2022
WELS, AUSTRIA

Energy Efficiency & Biomass

- presents the work and achievements of young researchers in the fields of energy efficiency and biomass
- is held in the context of the World Sustainable Energy Days 2022 (WSED22)
- offers the opportunity to interact with researchers and industry experts from all over the world and to build-up a peer network!

Young Energy Researchers Conference

Energy Efficiency & Biomass
2 – 3 March 2022

- The Young Energy Researchers Conference is part of the World Sustainable Energy Days. With more than 650 participants from over 50 countries each year, the World Sustainable Energy Days are a leading conference on the energy transition and climate neutrality.
- Linked to the main topics of the WSED22, the young energy researchers conference has 2 tracks, one for energy efficiency and one for biomass.
- The 2 best contributions are honoured with the awards "Best Young Energy Efficiency Researcher" and "Best Young Biomass Researcher". The researchers receive 1,000 Euro each as prize money.

We look forward to your contribution!
